A HORRIBLE DISEASE.

A White Victim of Genuine Lepresy Sent to the Lazaretto.

The San Francisco Call says that an unquestionable case of genuine leprosy was presented at the health office there July 13. The subject was a Swede, who had the appearance of being forty-five years of age, although he moght have been much younger, so utterly does this dread disease destroy the ordinary indications that denote one's stage of life. Formerly he was a sailor, trading at China and the East Indles, where, by long and constant intercourse and contact with those leprous nations, he absorbed the taint of the disease. For some years past he has been residing in San Francisco, go-For some years past he the country during the summer to work as a harvest hand. The disease began to develop itself while he was in Merced county, and he went to the county hospital there, where, the physicians being unfamiliar with leprosy, treated him for is hard to determine, as the another complaint, but as the disease is hard to determine, as the withstood all their remedies and steadily advanced, they became suspicious of its true character and wrote to Dr. Meares, the health of-ficer of San Francisco, as the best authority on this coast on such cases, and sent the man thither to be examined. When Dr. Meares examined him yesterday he had no hesitancy in procouncing it an unmistakeable case of genuine leprosy, and as it is not to the interest of the state that persons thus afflicted should be seattered about among the patients in the different county hospitals he was sent to the pest house here. This is the second case of leprosy in which the patient was a white man that has occurred here. The other was a native of Ohio, who followed the sea for many years spending a great portion of the time in China and the China seas. When the disease first appeared on him he went home to Ohio, but finding that it had baffled all treatment and continued to progress, he went back to the East Indies. He arrived in San Francisco, and being too sick to proceed further he went to the hospital there, where he remained until he died, which was a short time ago. In the meantime his fingers had decayed away and fallen off at the joints, and his feet had half dropped off. The Swede whom Dr. Meares examined the other day will doubtless go in the same way. His fingers are drawn out of their natural position, his skin has a leathery appearance, with nadules forming all over his body, particularly on his face and forehead, which wears an unnatural color. His face is sealed, and a horrible fate it is, dying by degrees, and rotting away by inches.

NUKLUX IN THE SOUTH.

Terrible Stories Told of Marders and Torture.

Athens, Ga., August 2 .- The excitement over kuklux outrages in Jackson, Whitebanks and Halcounts continues to increase. Marysville, Banks counmaranders, who meet on horseback a little way out of town, separate in different squads, and ride out in all directions, spreading terror wherever they go. The object of the raids negroes in the county mentioned sufficient to be considered. Cad Bush, for some reason, incurred the displeasure of the maranders, for which he was taken out by a party of masked men, his back burned, and one hundred and seventy-five lashes inflicted thereupon. While the castigation was being given the party would form in circles around the unfortunate man, indulge in una few minutes, only to rush unexpectedly back again. Among the latest victims is Nancy Prichett, who was subjected to horrible indignities. Wednesday night the plantations of two men named Sanderson and James Hollands were visited by grotesquely disguised men. The in-mates of the negro cabips huddled together in fright begging for mercy. The marauders broke in the doors, up-Setting everything in their way. Sanderson was severely shot while running tway from danger. Alex. Brooks, Warner Brison, Glenn Stout, and other inoffensive negroes were lashed until blood streamed from their backs. So great was the dismay created by the night's work that many colored men who were farming on shares have abandoned their homes and property, and are seeking safety elsewhere. In Jackson county the marauders are remarkably well organized. A party of fifty called at the caoin of Bob Ransom, who is a troublesome negro, and after whipping him severely one of the party shot him through the mouth, the ball coming out through the back of his neck. He is not expected to live. News has just ties. said that Clinton kept disreptuble women about his house. The crowd warned him to leave in twenty-four hours. A party of masked men also visited the cabin of a negro a mile from town this morning, just before daylight, made him take his goods out and then they burned it. His wife was sickly, and they took her out and laid her under a tree on a pallet. A white neighbor came and took her to his house and sheltered her until day, This lawlessness is a source of anxiety to all good citizens. The last case of kukluxing here was five years ago, when a negro killed one of a mob who at-tempted to enter his cabin.

Cameron Herald: Just before the camp-meeting began several of our merchants had large signs painted and put up on the camp-ground. One of these signs was that of T. J. Williams, advertising wines, liquors, etc. Major Penn objected to this, and said it must be taken down. That night some one took it upon himself to cut the sign which was very wrong and could but meet the disapproval of everyone—even those who were most opposed to the advertising of wines and liquors englie ground.

Texarkana Nows: We have frequently heard the expression of "shooting his heart out," but never knew it to be litterally accomplished except in the unfortunate Sheffin-Cochran homicide, which occurred on Wednesday evening. We thought the heart dro-ped out when deceased fell on his face, but we are informed that the witness of the shooting says he saw the heart Constable Sprewell, of St. Clair fall out of the wound at the moment

The news from Italy is that the kingdom is greatly excited over the expected arrival of the horse Damascus, which has been sent as a present by Mr. Garrett, the Baltimore railway king to Umberto, the Italian crown and scepter king. A magnificent stable has been prepared for the ani-mal, and a commission has been given to Story, the sculptor, to make a marble statue of him.

It is stated that one thousand Methodist preaches are going to stump the state of Iowa in favor of prohibition.
